If you have a well-constructed schedule, this could be where the reviewer will look very carefully to find inconsistencies and point them out as a deficiency. Your project may be original, the objectives may be clear, and the methodology choices may be appropriate, but if you do not construct a framework of tasks and resources people and money that are clearly coordinated, the reviewer will not be able to evaluate the feasibility of your project.

AgoodsampleisarepresentativeofitsThe Success in Research series, from Cindy Becker and Pam Denicolo, provides short, authoritative and accessible guides on key areas of professional and research development. Your PhD research proposal must passionately articulate what you want to research and why, convey your understanding of existing literature, and clearly define at least one original question and your approach to answering it.
