Following Steward, they take seriously the relationship between a culture and its environment. Each social movement discussed earlier belongs in one of these four stages. For example, the global movement called Slow Food focuses on how we eat as means of addressing contemporary quality-of-life issues. Drawing on contemporary and historical case studies from Finland, Sweden and Norway, Progress or Perish highlights the roles that art, culture and academic research play alongside technology and economics as bearers of change, approaching the study of progress from the human level.
