Bit wordy on their company philosophy but really great ideas on how companies can minimize their impact on the environment. Given the pace of degradation to the Earth This book should be mandatory for .

It seems I have always known about the Patagonia company, and that they had some. Chouinard gives example after example of these strategies and the change they have created. As the evils of society become stronger and more numerous, we recognize that as a larger and more influential company our responsibilities to society and our efforts to be an even more responsible company have also increased.

For the same reasons: to do what you believe in, do good and to lead by an example. Wikipedia, the free encyclopedia. Other Editions
